With nearly 20 years of industry experience, Artekya Technology is an R&D company that has made quality and technology its core competencies and produces nano-coating products for many surfaces such as metal, glass, ceramics, wood, and textile.

Thanks to its industry experience, NASIOL products, which is the main brand of Artekya Technology, are offered to the whole world through offices in the Czech Republic and the USA, as well as the R&D and Production Center, Head Office in Turkey.

Products with unique nano-technological formulations developed under the brand name NASIOL are used in the automotive, industrial, maritime and textile sectors, as well as in areas such as household and personal goods.

Absolute Protection for The Maritime Industry

Nasiol Marine is an all-inclusive product line perfectly designed for marine professionals. Nasiol Marine Coatings protect yachts and sea vehicles from sun, moss, bird droppings, and salty water.

With this protective technology, you will no longer spend much on aftercare for your boat.

General Features:

- UV Protection
- Easy to Clean
- Anti Corrosion
- Anti Fungus and Algae
- High Hydrophoby
- Stain Free
- Oxidation Resistance
- Fouling Release
- High Gloss
- Salt Water Resistance

Exterior Care

MARINECOAT ONE

NANO CERAMIC COATING FOR MARINE GELCOAT PROTECTION

150mL / Durability up to 1 Season underwater, 2 Seasons in above-water parts

Nasiol MarineCoat One is an ultimate nano ceramic coating for gelcoat of marine vehicles and plastic parts, which protects your vehicle against scratches, acid rains, UV irradiation, detergents, and several chemicals. It is easier to remove exhaust smoke with coated surface, and you don't need to use harsh chemicals to clean your boat.

MarineCoat One rejuvenates the original color of the surface and ensures the vehicle has an attractive look. It provides a tough and durable coating while ensuring an ultra-high gloss finish for your boat's exterior surfaces. It can be renewed with Nasiol MarineCoat Fast for the parts exposed to salt water or abrasion. There is no need to renew the upper parts of the vehicle.

-  Antifouling
-  UV resistance
-  Crystal gloss
-  Easy to clean

MARINECOAT FAST

NANO CERAMIC COATING FOR MARINE GELCOAT PROTECTION

150mL / Durability up to 1 Season

Nasiol MarineCoat Fast gives superior and long-lasting nano protection for the above-water plastic and metal parts of your boat and yacht. Nasiol MarineCoat Fast protects your marine plastic and metal parts from UV rays and stains, giving an easy-to-clean effect with a deep shine.

It repels dirt and water and provides up to one season of protection. Easy to apply, Nasiol MarineCoat Fast is the perfect match to protect marine surfaces from oxidation and make hard-to-remove dirt out of trouble.

-  Antifouling
-  UV resistance
-  Easy to clean
-  Saltwater resistance

Wood, Glass & Metal Protection

DECK COAT

NANO COATING FOR MARINE WOOD PROTECTION

500mL / Durability up to 1 Season

Nasiol DeckCoat Marine is a product to protect yacht natural wooden parts from fouling, salt water and harmful UV rays. This high tech formula has been developed for natural wooden surfaces to gain hydrophobic and oleophobic properties against common liquids and stains whilst giving easy to clean effect. It can be applied to a variety of marine wooden surfaces.

-  Antifouling
-  Salt water resistance
-  UV resistance
-  Hydrophobic and oleophobic

GLASS COAT

NANO RAIN REPELLENT FOR MARINE GLASS PROTECTION

50mL / Durability up to 1 Season

Nasiol GlassCoat Marine ensures a safe cruise in rainy conditions with its rain repellency property and protects your marine vehicle's glasses and mirrors from UV irradiation and stain. It has a hydrophobic, oleophobic, and easy-to-clean effect.

GlassCoat Marine water repellent spray provides protection and rugged repellency against the elements for the glass of your boats!

Water drops slide right off, leaving no residue on your boat windows with perfect visibility.

-  Easy to clean
-  Water and oil repellency

METAL GUARD

NANO CERAMIC COATING FOR MARINE METAL PROTECTION

50mL / Durability up to 1 Season

Nasiol MetalGuard is a one-component rust and corrosion-resistant nano-coating product that protects any boat or yacht's metal carabiners, inox rails, anchor, mooring cleats against harsh conditions. Nasiol MetalGuard gives superior and long-lasting nano protection against corrosion and saltwater damage for the metal parts of boats and yachts, which are well-known problems.

Nasiol MetalGuard makes the surface highly repellent and resistant to water conditions, so the cleaning process is no longer a problem.

-  Water and oil repellency
-  Rust and corrosion resistance

Fabric & Leather Protection

FABRIC COAT

NANO COATING FOR MARINE FABRIC

500mL / Durability up to 6 months

FabricCoat Marine provides extreme protection for all types of fabrics against common liquids, stains, salt water, mold. Its super durable and water-resistant features are perfect for wet weather cloths, awnings, and marine interior fabrics.

Many boats have uncomfortable and inferior plastic and synthetic fabric blends designed to be challenging for boating conditions. Sun and sea is a harsh combination against fabrics. But you don't have to bear with tough and rough fabrics anymore. Upholster for comfort! MarineTex, water repellent spray, protects the fabric parts of your boat - seats, ropes, tents - from water and stain, preserving their color and extending their lifetime.

-  Anti-Stain
-  Hydrophobic and oleophobic
-  UV and chemical resistance

LEATHER COAT

NANO CERAMIC COATING FOR MARINE LEATHER PROTECTION

150mL / Durability up to 1 Year

It is crucial to take care of not only the exterior of your boat but also the interior. Saltwater especially wears out leather surfaces in a short time. Our leather protection solution LeatherCoat Marine is a transparent nano leather protector that can be applied to genuine and artificial leather surfaces, preventing paint transfer and ensuring minimal wear. By bringing water and oil repellency to the surface, this leather care product prevents the surface from salt, dirt, and stains. It protects against color fading caused by the sun and leather deformation that can occur over time. Nasiol LeatherCoat Marine will help you extend your leather's life and protect the surface against chemicals and UV rays.

-  High hydrophobic
-  Chemical and UV resistant
-  Stain free

Cleaning Agents

CLEAN MARINE

UNIVERSAL PRE CLEANER

500mL

Clean Marine is a universal cleaner for hard marine surfaces. It removes any surface dust, dirt, and residual contamination, especially before using nano-coating products. It is a fast and straightforward way to prepare the surfaces for protection with other Nasil Marine Products.

-  Easy application
-  Fast results
-  Maximizes the bonding of nano coatings

TEM APC PRO

ALL PURPOSE CLEANER

500g

Nasil TEM APC Pro Marine is an ultimate multi-purpose cleaner, capable of removing all kinds of unwanted dirt from the exterior and interior of water vehicles.

It doesn't matter how often you take your boat out on the water or how much you maintain it, and having a complete set of marine care products will allow you to keep the vitality of your boat on the first day.

-  Concentrated formula
-  Easy application
-  Effective results

CLEANION PRO MARINE

PROFESSIONAL WASH SHAMPOO FOR MARINE VESSELS

500g

Cleanion Pro Marine is an ultimate wash shampoo for water vehicles that provide high foaming with its concentrated formula. It softens the bond between the surface and dirt particles and provides easy cleaning by reducing surface abrasion for hard-to-shift grime.

Cleanion Pro Marine cuts the bond between the stain and the marine vessel's paintwork. This professional shampoo disables dirt particles, minimizing surface abrasion and maximizing gloss retention. It is a perfect partner for other Nasil Marine series products.

-  Concentrated formula
-  Nano coating safe

Polishing Compounds

A high-angle, close-up photograph of a white sailboat's deck and cabin area. The boat is moving through the water, creating a wake. The scene is bathed in the warm, golden light of a sunset or sunrise, with the sun low on the horizon to the right. The sky is a mix of soft orange and pale blue. The sailboat's white hull and cabin top are prominent, with a dark blue stripe running along the side. A large white sail is visible in the background, partially obscuring the sky. The water is dark blue with shimmering highlights from the low sun. The overall mood is serene and nautical.

M1000 FIRST STEP

HEAVY CUT COMPOUND

1kg

Nasiol M1000 First Step is a low-dusting, non-sling polishing compound designed for marine applications.

It is a silicone-free cutting compound developed to remove sunburns and water spots. It removes heavy scratches, oxidation, and swirls on marine gelcoat.

-  Easy operation and fast results
-  Effective on resistant coatings
-  Silicone free

M1500 SECOND STEP

FINE CUT COMPOUND

1kg

Nasiol M1500 Second Step is a low-dusting, non-sling polishing compound specifically designed for marine applications.

It is a silicone-free cutting compound developed for removing fine scratches and holograms and achieving high gloss on marine gelcoat after applying M1000 First Step.

-  Fine scratch and hologram removal
-  Easy operation and fast results
-  Less polish residue
-  High gloss
